DEVELOPING KEY COMPETENCE OF ADULTS
FOR HIGH QUALITY LEARNING OPPORTUNITIES

Erasmus+

Back to Learning

DEVELOPING KEY COMPETENCE OF ADULTS
FOR HIGH QUALITY LEARNING OPPORTUNITIES

The duration of the project:

1st October 2018 – 31st December 2020.

The main goal of the project:

- Partner organisations should expand the range of methods and tools used in the development of basic skills (reading / writing / text comprehension, numeracy, digital competence, learning to learn, civic and cultural competence, etc.) through mutual learning.
- The partners will share their good practices and operational management experience in building an organisational network related to the development of basic skills, organising trainings, curriculum development, literacy awareness and further training development of educators and professionals responsible for improving the situation of low-skilled adults.

Expected main results of the project:

- Collection of good practices - a publication presenting the good practices, methods, experiences and results of the partner organisations.
- Framework for the preparation / further training of professionals involved in development of adult basic skills.
- Proposal for the concept of adult basic skills development
